

Professional Profile

‘Versatile and detailed-oriented young professional with a degree in pure mathematics having passion and certified in front-end software development and a full-stack enthusiast with ability to learn on the job.’

Methodical, client-focused front-end software developer, with over two years of training in responsive web development. Adept at developing user interfaces, and ability in optimizing codes, deployment and maintenance. Recognized for developing bespoke responsive interfaces that optimize business performance and generate positive customer reviews. Enjoys collaborating with colleagues to provide a greater platform for the success of projects. I look forward to using my skill as a web developer to enhance the company’s participation in the e-community.
